CALL FOR EXPRESSION OF INTEREST

POTENTIAL REDEPLOYMENT TO LONG TERM CARE OR RETIREMENT HOMES ALL STAFF

Caring for residents and tenants who reside in the community's Long-Term Care (LTC) and Retirement Homes (RH) is one of the most noble things we can do during these difficult times.

Our Hospital is partnered to support our local LTC homes and local Retirement homes if needed. We are seeking to create a roster of staff that would be willing to assist in retirement homes and LTC home settings in the community. Our goal is to identify volunteers in our hospital with a passion for caring for seniors for standby deployment if needed.

If you have a desire to help those most in need, a passion for caring for seniors, and the ability to be called upon if needed, please seriously consider putting your name forward. Volunteering means that you commit to your name being placed on a list and be called on to work in LTC or a retirement home if needed. You would continue to be a TBRHSC employee and would be paid for your work. All interested employees are encouraged to submit an expression of interest.

Thank you for your consideration and for your continued dedication and commitment to our community as you ensure our patients receive quality care in these unprecedented times. Please see LTC and RH Redeployment - FAQ for more information. Please respond as soon as possible, but we will leave this call open until further notice.

Interested individuals should submit an email with their interest to the Human Resources Department at humanresources@tbh.net
