Masks or face coverings are currently mandatory for all staff when not alone in an office or in an area in which physical distancing can be properly maintained, and strongly encouraged for patients and care partners who visits our Hospital. For the safety of all staff, professional staff, patients and the community, our Hospital will soon be making masks/face coverings mandatory for everyone who enters our Hospital. IMT is currently working through the details of how this will be operationalized. More information will be provided as it becomes determined.

Meetings between Human Resources leaders in Northwestern Ontario and Ontario Health North are still ongoing to determine the details and processes for the distribution of pandemic pay. Once the funding is received, eligible employees will receive pandemic pay through the existing payroll system. We apologize for the delay and sympathize with your frustrations during this process. We expect to have finalized direction from the government soon and will provide an update once details are confirmed. We also remain disappointed that pandemic pay will not be extended to all health care workers and highly value the dedication and professionalism put forth by all Hospital employees during the course of the COVID-19 pandemic.
