RE: Manager, North West Regional Renal Program

I am pleased to announce that **Allyson Hoard Mann** has been appointed to the position of Manager, North West Regional Renal Program. Effective, March 29, 2021, Allyson will be responsible for the leadership and daily management of the North West Regional Renal Program, including the Thunder Bay hub site and Fort Frances and Sioux Lookout satellite sites.

Allyson received her Bachelor of Science Degree in Nursing from Lakehead University in 2004 and her Masters in Nursing Administration and Management from Aspen University in 2019.

Allyson started at Thunder Bay Regional Health Sciences Centre in 2004 as a Nurse in the operating room. From there, she went on to join the Peritoneal Dialysis unit in 2013 and became the Clinical Nurse Specialist for the Renal Program in 2015. In 2018, she took on the role of Renal Coordinator for the North West Regional Renal Program. In these roles, Allyson has not only built a solid foundation and positive rapport with the healthcare team, but has shown that she has developed the skills, efficiencies and leadership qualities needed to excel in her new role.

Please join me in congratulating Allyson on her new appointment.

A heartfelt thank you to Mary Wrigley for the incredible leadership and dedication she has provided to the North West Regional Renal Program since 2014. We would like to wish Mary all the best on her upcoming retirement.
