Keeping You Safe

RE: **Isolation Gowns**

As the supply chain for disposable isolation gowns has stabilized, we will slowly be transitioning those departments using reusable isolation gowns back to disposable gowns. This will be done in a careful and measured manner with continuous monitoring of supply levels.

Your department manager will be contacted prior to being moved over from reusable to disposable isolation gowns and stock levels will be coordinated in advance to ensure each department has adequate supplies on hand.

Thank you for your support and professionalism during this challenging time.
