

COVID-19 UPDATE

Keeping You Safe

To: All Staff and Professional Staff

From: Dr. Peter Voros, Incident Manager

Date: March 16, 2021

RE: Staff Vaccine Update

I am pleased to share that vaccinations have been administered or are available to all staff and active and associate professional staff at our hospital. This is a significant milestone and I appreciate the patience of all as we moved through the scheduling process.

To those who have been vaccinated or booked their vaccinations, thank you for your commitment to the safety and protection of all. The vaccine provides an added layer of protection against the spread of the COVID-19 virus, and it has been a privilege to hear about the relief and elation many experienced after receiving the vaccine.

Please remember to contact Occupational Health & Safety to advise them of your vaccination and submit your receipt of vaccine at ohs@tbh.net.

If you have not yet received your code to book a vaccine, please contact your manager. If you have received your code but not yet scheduled an appointment, please do so as soon as possible. Your health and safety is our utmost priority.

I am grateful to the COVID-19 vaccination team for their dedicated efforts. It has been a tremendous undertaking, and the team has been highly motivated by the promise the vaccine provides to all for a return to pre-pandemic life.

Thank you for your support and professionalism during this challenging time.
