Re: New Emails for Ontario Health North Staff

Please be advised that as of June 4, 2021 Ontario Health North staff will begin using new Ontario Health email addresses.

For most people this will mean their email will look something like this:

Firstname.lastname@ontariohealth.ca

Staff may reach out to you in the coming days to ask that you update your contact list with the correct email. They may also request that for pre-existing reoccurring meetings, you resend an invite to their new Ontario Health email otherwise they will lose these meetings from their calendar.

Please Note: This change will not affect Home and Community Care Support Services North East or North West staff. Staff working in home and community care will continue to use their LHIN email address (firstname.lastname@lhins.on.ca) for the time being.

Thank you kindly for your patience with this change!
