RE: **Revised Women and Children's Program Essential Care Partner Guidelines**

---

The health and safety of all patients, staff and professional staff is our utmost priority.

In alignment with our Hospital's pandemic response efforts and to better support our patients and families, the Women & Children's Program is pleased to provide updated guidelines for their Essential Care Partners.

Guidelines balance the importance of patients having the support of their care partners while also maintaining safety within the departments. Exceptions to the guidelines will be considered on an individual basis and should be directed to the Unit Manager, After Hours Leader or Administrative Coordinator.

For your reference, the updated Women and Children's Guideline document is included with this memo and can be accessed online at <http://bit.ly/ECP-Guidelines-PDF-May2021>
