Date: July 22, 2021

RE: **Staff Vaccination Reminder**

Currently, a small percentage of staff who have already received their first dose have not yet received a second dose. Our Hospital strongly encourages all who are eligible to receive their second dose do so as soon as possible: 21 days following your first dose for Pfizer and 28 days for Moderna.

Although the Hospital's Bora Laskin COVID-19 Vaccination Clinic is closing as of Friday, July 23rd, all may conveniently reschedule an earlier appointment through the provincial booking system for the Thunder Bay District Health Unit's (TBDHU) COVID-19 vaccination clinics, or at a local pharmacy. Alternatively, walk-ins are currently available Monday to Friday at the TBDHU's CLE Coliseum Clinic. This is also a great opportunity for those who have not yet received their first dose. For more information about vaccine options, please visit <https://www.tbdhu.com/covidclinics>.

Once you have received your vaccine, please ensure to forward a copy of your vaccination receipt to Occupational Health and Safety at ohs@tbh.net.

Thank you to all those who have already received both doses of the vaccine in order to help protect yourself and others from the spread of COVID-19. Your commitment to health and safety is much appreciated.

All Hospital COVID-19 updates and resources are available on the iNtranet at <https://comms.tbrhsc.net/covid-19-information/>.
