RE: Nursing Practice Council - Expression of Interest

Are you supportive and looking to lead practice change?

Do you want to empower your nursing practice?

Consider joining our Nursing Practice Council as your practice area representative!

Building on the work completed by a planning group comprised of frontline staff, Clinical Nurse Specialists and Nursing Practice Leaders in September of 2020, plans are moving ahead to create a Nursing Practice Council. The Nursing Practice Council will provide a forum for nursing representatives from across the organization to participate in discussion, referral or decision-making processes that impact safe nursing practice and quality patient care, in alignment with the mission, vision and strategic plan of Thunder Bay Regional Health Sciences Centre.

If this opportunity excites you complete the attached “Expression of Interest” and email it to nurses@tbh.net by November 12th, 2021.

Contact Julie Vinet, Nursing Practice Leader at vinetj@tbh.net with any questions or additional information you may have.

Your Nursing Practice Team
