## Risky Behaviours After Stroke: How Can we Support?

**Wednesday December 1<sup>st</sup>, 2021 0800-0900h (EST)**

**Objectives:** Upon completion, participants will be able to:

1. Identify stroke best practices that relate to substance abuse post-stroke
2. Describe ethical principles when engaging with stroke patients regarding risky behaviours
3. Apply harm reduction and health teaching principles to stroke patients in the acute and secondary prevention stroke environment
