

# Volunteers Needed for Research Study!

Would you like to be a part of an  
**exciting new research study?**

Researchers are looking for healthy participants and participants with Alzheimer's disease to undergo Magnetic Resonance Imaging (MRI) scans using a new gas contrast agent to improve images of the brain.

To be eligible for this study you must:

- ✓ Be over the age of 18
- ✓ Not be claustrophobic
- ✓ Not be pregnant

**The study takes place at the Thunder Bay Regional Health Sciences Centre and will require a minimum of 2 study visits (maximum of 6). You will be compensated \$50 for each MRI study visit.**

To request more information about this study, please contact the research team at **(807) 684-6958**.

For more information about your rights as a research participant, contact the Thunder Bay Regional Health Sciences Centre Research Ethics Office at 684-6422 or Lakehead University Research Ethics Office at 343-8283.
