RE: Coordinator – Cardiovascular Services

We are pleased to announce that **Jill Kuzmich** has accepted the position of Coordinator- Cardiovascular Services, effective Dec 19th, 2022.

Reporting to the **Manager- 2C Cardiovascular & Regional Stroke Unit – Vascular Services**, Jill will provide clinical and administrative support and leadership to help improve patient care and work environments for staff across the cardiovascular services including inpatient/outpatient cardiology, vascular services and cardiac diagnostics.

Jill has been employed as a Registered Nurse at TBRHSC since 2009, primarily providing acute care to Cardiovascular & Stroke patients. In addition to her demonstrated work ethic and clinical expertise, Jill established very quickly that she excelled as a leader and has been a role model for many staff throughout the years. In 2021 Jill took on the temporary role as Coordinator - Transitional Care Unit (TCU) and provided mentoring and support to many staff while making sure the needs of patients and their families were met. In Jan 2022, Jill took on a new role as Clinical Stroke Nurse and with her positive outlook, continues to focus on delivering the best care possible for all acute stroke patients.

Jill has proven over the years that she is someone who works diligently to deliver high quality care and that positive patient experiences are achieved to the highest of standards. In Jill's new position she will continue to focus on leading quality care that will focus on accountability and commitment across the Cardiovascular Services while staying true to our vision, mission and values.

Please join us in welcoming Jill Kuzmich to her new role
