

Let's Celebrate!

The Health Care Providers (HCP) is proud to have Thunder Bay Regional Health Sciences Centre as a member of their Endorsing Hospital family. And, HCP is even more proud to help them celebrate their Employee Recognition Week.

HCP is a unique program of true group benefits, designed and offered specifically to hospital employees not covered under the hospital's group plan. Coverage is guaranteed, no medical questions asked, and provides employees and their families a variety of plan options which include life insurance, long term disability coverage, prescription drugs, paramedical services, vision coverage, travel benefits and so much more. Coverage options are available for retirees too!

Support for TBH Employees

Who better equipped to understand the advantage of health care benefits when you least expect to need them than those who have dedicated their careers to caring for the sick! We appreciate the caring and compassion extended by health care workers of every kind and know the importance of their dedication to the hospital and its patients! We support them by offering a group benefit program rich in coverage and value so that they can be at their best to help care for all the rest of us!
