From: Wayne Taylor, Director Cardiovascular, Medicine & Renal Program
Chris McNaughton, Administrative Manager- 2A, 2B, TCU

Date: April 28, 2023

RE: **Patient Care Manager – 2B Medical Inpatient Unit**

We are pleased to announce that **Meghan Hill** has accepted the position of **Patient Care Manager – 2B Medical Inpatient Unit**.

Meghan brings 15 years of clinical experience to this role and will officially join our leadership team with the Cardiovascular, Medicine & Renal Program effective Monday, May 8, 2023.

Meghan has spent the majority of her career in critical care, initially starting in the Intensive Care Unit (ICU) at the Ottawa Hospital - General Campus before returning to Thunder Bay where she has worked in critical care services at TBRHSC since 2009. Within this time Meghan developed a high level of competency and expertise as she took on additional roles with the Medical Emergency Team (MET) and Regional Critical Care Response (RCCR). More recently, Meghan assumed the role of clinical lead for the Regional Paediatric, Neonatal and Infant Transport initiative gaining valuable experience with project development and implementation with a regional focus.

As a critical care nurse, Meghan incorporates evidence-based practice to inform clinical decision-making and this has been the standard and expectation of her practice throughout her career. As a mentor to novice staff and students, she has consistently promoted a supportive and safe environment for learning and professional development.

Meghan will be a welcome addition to our leadership team as she brings her skills, knowledge and experience to 2B Medical Inpatient Unit.

Please join us in welcoming Meghan to her new role.
