Acute Stroke Management – Keeping up with Canadian Guidelines

Wednesday June 21st, 2023, 0800-0900h

Objectives:

- Provide an overview of the 7th edition Acute Stroke Management module, including content and module organization and structure
- Review notable updates of the 7th edition Canadian Stroke Best Practice Recommendations Acute Stroke Management module
- Identify the goals of acute inpatient stroke care within the stroke care continuum
- Review the components of emergency department and acute inpatient stroke care
- Discuss enablers and challenges in implementing these recommendations
- Discuss the importance of patient and caregiver education
- Describe available resources for health professionals, people with lived experience of acute stroke and their caregivers
