RE: Announcement - Performance Improvement Consultant

I am pleased to announce that Amanda Walberg has accepted a Permanent Full Time Performance Improvement Consultant position in the Strategy and Performance portfolio.

Amanda has been in a temporary Performance Improvement Consultant role since February 2023 and in that short time has expertly supported and advanced an array of strategic, operational, and regional initiatives including Pandemic Transition to Normal Operations, Lower Limb Preservation, and several initiatives within the Equity, Diversity, and Inclusion pillar of our 2026 Strategic Plan.

Amanda holds an Honours Bachelor of Kinesiology from Lakehead University and is nearing the completion of Master of Health Administration (Community Care). Amanda's experience, education, and skills are evidenced by her ability to consistently exceed the expectations of our clients.

I have no doubt she will continue to brilliantly support our leaders, teams, and organization going forward. Please join me in congratulating Amanda as a permanent member of our team!
