

# Canadian Patient Safety Week

## October 23-27, 2023

Canadian Patient Safety Week (CPSW) is fast approaching, taking place from October 23-27, 2023. The provision of safe and high quality care is a top priority at Thunder Bay Regional Health Sciences Centre (TBRHSC). We are continuously evaluating our current practices and looking at opportunities to make improvements.

This year's theme for CPSW is "Small Changes. Big Impact. Safer Care." With this in mind, we wanted to highlight and recognize

all of the hard work and bright ideas that have come from the Quality Huddles.

Quality Huddles are a prime example of the amazing teamwork and collaboration at TBRHSC. One of the main goals of the Quality Huddle is to focus on small/quick wins, which may seem simple on the surface, however, "Even small changes can have a big impact ... things like asking a question, having a quick conversation, or proactively taking action" (Healthcare

Excellence Canada, 2023). Together, all of these "small" changes have a significant impact when it comes to delivering safe, quality care.

Please join us in the various activities throughout CPSW, with a daily breakdown below. A display will be set up in the cafeteria to highlight the excellent work and countless ideas that numerous teams throughout TBRHSC have implemented since the initial roll out of the Quality Huddles earlier this year.

### Monday, October 23

Time: 12:00 p.m.

#### Webinar

"Reigniting the Patient Safety Flame"

Location:  
Room 2171

### Tuesday, October 24

Time: 12:00 p.m.

#### Webinar
