

SAFETY ALERT

The hospital is currently updating our hazardous medication policies and list of medications

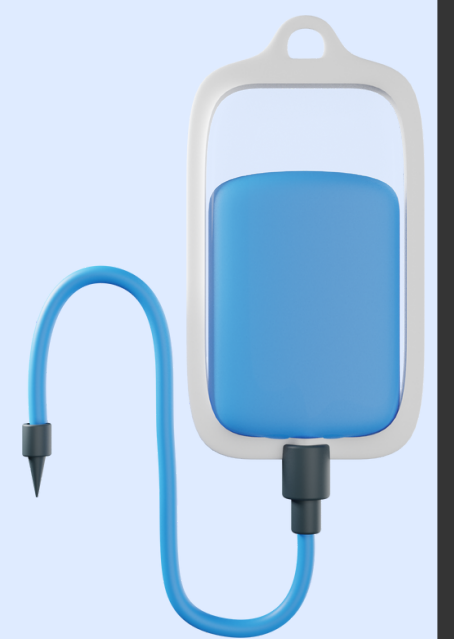

For oral solid hazardous medications, you must wear blue nitrile gloves

For oral liquid hazardous medications, you must wear blue nitrile gloves and a gown

All hazardous medications listed have been removed from the omniceil. Pharmacy will be providing them to your area.

The exception to this is STAT IV Phenytoin. If you have to administer a STAT dose, you must wear gloves, gown, and face shield while mixing

When administering IV medications, wear a gown and blue nitrile gloves. Spike the bag at waist height.

This now applies to the following medications:

Acitretin - PO	Exemestane - PO	Pamidronate - IV
Anastrozole - PO	Finasteride - PO	Paroxetine - PO
Bicalutimide - PO	Fluconazole - PO	Phenytoin - PO/IV
