

# Important Change For Staff on 8 hour Night Shifts

Historically an eight hour night (i.e. N2 in Staffright) appears on your schedule on the day that you end your shift, even though you come in the night before.

What will change in UKG: This shift will no longer appear on your schedule on the day you end your shift. **INSTEAD it will appear on the day that you arrive for your shift.**

In this UKG example the 8 hour night appears on Monday, June 3. This means you are coming in at 23:30 (11:30pm) on Monday, June 3rd and ending your shift at 0730 (7:30am) on Tuesday, June 4th.
