

Patient Experience Award

The Patient Experience Award is presented to a member or members of the hospital community who contributed to a strategic initiative that embodies the goal of “empathy, compassion and respect in every encounter”. This individual or team embeds empathy, compassion and respect into their interactions with others, is focused on quality, and is an expert in caring for patients with complex needs.

Sarah A. Myllyaho

Sarah is such a hard working nurse that consistently goes above and beyond for all of her patients and colleagues. Sarah helps so many people throughout her busy day, she sees inpatient and outpatients as well as pediatric and adult patients and is an excellent

resource for staff. Sarah selflessly covers for other clinics/colleagues when they are away, often staying late or coming in early to provide care and support. Sarah's knowledge of wound care and her ability to not only make a care plan, but follow-

up and adapt is unmatched. Sarah is a hardworking and a great team member who is kind and caring with all of the people she interacts with. We are incredible lucky to have such a knowledge, diligent and efficient nurse!!
