

Enhancing Indigenous Representation at TBRHSC Feedback Survey

As part of our ongoing commitment to equity, diversity, and inclusion outlined in our Strategic Plan 2026, we are excited to invite all staff, professional staff, volunteers, and learners to participate in an important survey focused on enhancing Indigenous representation in health human resources at Thunder Bay Regional Health Sciences Centre (TBRHSC).

Our goal is to create a more inclusive, supportive, and equitable workplace that values the contributions of Indigenous staff and enhances our recruitment, retention, and overall career pathways for Indigenous individuals in health care roles.

Your feedback will directly guide strategies to improve recruitment, job satisfaction, and retention for Indigenous staff.

Together, we can make TBRHSC a leader in equity, diversity, and inclusion and ensure we are providing the best possible support for our Indigenous colleagues.

The survey closes February 16, 2025.

Exceptional **care** for every patient, every time.
