

Thunder Bay Regional Health Sciences Centre

Career Opportunity Registered Cardiology Technologist (RCT)

Thunder Bay Regional Health Sciences Centre (TBRHSC), a 425-bed academic specialized acute care facility, is a national leader in Patient and Family Centred Care. As the only tertiary care provider in Northwestern Ontario, we provide comprehensive services to a population of over 250,000 residents in a region the size of France. Effectively addressing the health care needs of patients and families has earned us both Innovation Awards and Leading Practice Designations. As an

academic health sciences centre, we teach the next generation of health care providers and advance medical research. Patients benefit from interprofessional teams of dedicated health care providers and access to leading-edge medical technology and clinical trials.

We are looking to grow our team in Cardiac Diagnostics through the recruitment of Registered Cardiology Technologists (RCT) to perform non-invasive cardiac diagnostic testing such as Electrocardiograms, Exercise Stress

Testing, Holter Monitoring as well as cardiac device monitoring and programming.

TBRHSC is offering \$10,000 recruitment incentive bursaries to RCT graduates from an accredited Canadian RCT program in 2023/24. These bursaries would be accompanied by a three (3) year return of service agreement for full-time employment as an RCT at TBRHSC.
