Cardiovascular Surgery Program
Frequently Asked Questions

Construction is expected to take three years.

What is the Cardiovascular Surgery Program?
To improve patient care for the region, Thunder Bay Regional Health Sciences Centre (TBRHSC) has been working with the Peter Munk Cardiac Centre (PMCC) at the University Health Network (UHN) to co-develop a cardiovascular surgery (CVS) program at TBRHSC since 2013. We are in an exciting stage of the project, where **76,000 square feet** of space will be renovated and expanded to accommodate a new comprehensive cardiovascular surgery program that will allow our Hospital to complete vital cardiac procedures, reduce wait times for urgent and elective procedures and ensure timely access to essential services in the region.

This transformative project will include

- 14** Cardiovascular Surgery inpatient beds
- 6** New Coronary Care Unit beds
- 1** New Hybrid Operating Room

Renovations to Operating Rooms 9 & 10 | A new Ambulatory Care clinic and Pre-admission Clinic expansion | Renovations to Medical Devices Reprocessing and Biomedical departments

STRATEGIC PLAN

14

Exceptional **care** for
every patient, every time.

Bridge NW – Early Access/Testing/Training

- ▶ **Current** – access the North Bay sandbox through change specialists, for workflow validation, scoping, access to recorded demos at bridgenw.ca
 - ▶ **January 2026** – access to HSN's Training environment for the Order Set Committee
 - ▶ **August 2026** – broader access to the Test Environment for Integrated Testing
 - ▶ **January 2027** – Full access to the Training Environment
- ▶ NOTE: There may be additional access during build but this is currently under discussion with ONE HITS

Institute

Exceptional **care** for
every patient, every time.

How will I be involved?

- ▶ **Working Groups** – SMEs will continue to work with Bridge NW and ONE throughout the build on site specific configuration
- ▶ **Order Sets** – the order set committee will be working until go live to review and approve order sets
- ▶ **Change Activities** – the Change Network, alongside the hospitals, are working on the non-system changes that will be needed in 2026 to support go live (process, practice, policies)
- ▶ **Testing/Workflow Validation** – at key decision points during 2026
- ▶ **Activation** – communications events, training, data entry, device testing, setup
