

Accreditation 2026

Simulation Survey

Taking place on February 18, 2026

Accreditation involves everyone at TBRHSC. We all play a vital role in delivering the highest standards of care to our patients and families — each and every day.

The Hospital's next on-site Accreditation survey is scheduled for May 11-14, 2026.

In preparation for this, a “Simulation Survey” has been scheduled for February 18. During the simulation survey an experienced Accreditation Canada surveyor will be conducting a mock tracer within your department.

Purpose

The purpose of this activity is to identify strengths and opportunities for quality improvement.

It will help you:

- Feel at ease with the survey process
- Build confidence and comfort when speaking with surveyors
- Provide guidance, advice and practical tips for the on-site surveys

What to Expect

The simulation survey is meant to be a learning exercise and is not a test. During this exercise, you may be asked a question by the surveyor, or asked to participate in a team huddle. Questions could relate to any of the Accreditation

standards that impact your area (e.g. related to patient identification, hand hygiene compliance, etc.). Access resources related to Accreditation and Required Organizational Practices (ROPs) via the iIntranet:
