RE: Turtle (I) Lot Additional Parking Capacity

Effective March 10, 2026, Turtle (I) Lot will have an additional 36 temporary parking spaces available for staff use until further notice.

These additional spaces are accessible through the Turtle (I) Lot and located near the pedestrian path accessing the Hospital (G staff entrance). Drivers will enter via single-lane entrance and cross the designated pedestrian path.

As a reminder, drivers and pedestrians are to exercise diligence, caution, practice situational awareness, and abide by posted signage.

These temporary parking spaces are available for use over the next few months as site options are explored. Availability is subject to change upon future communication.

Thank you for your continued understanding as we transform our campus to enhance our exceptional services for NW Ontario!
