Free webinar. No registration required.

*This session is sponsored by the Gerontological  
Nursing Association- Northwestern Ontario Chapter*

## WHEN PATIENTS THANK THE AI: COMPASSION, CARE, AND THE LIMITS OF AUTOMATION IN HEALTH

- Recognize how AI tools are reshaping compassion-sensitive interactions in clinical settings.
- Evaluate whether and how AI systems can meet the relational demands of healthcare.
- Interrogate the limits of what AI can do relationally in care settings.
- Critically examine assumptions about what "care" means when technology mediates the patient-provider relationship.

**CERTIFICATE OF  
ATTENDANCE AVAILABLE**
