Speaker Name:

Dr. Alex Pisig, MD

Allison Porter, RN

Ben Lawson,
Medical Student

Objectives:

- Identify early symptoms of retinal detachment (flashes, floaters, curtain-like vision loss), and differentiate them from benign presentations that commonly appear in primary clinical settings,
- Recognize which patients may be candidates for urgent intervention and timing enough to guide urgency and referral,
- Understand the retinal detachment treatment capabilities available at TBRHSC.

Thunder Bay Regional
Health Sciences
Centre

STRATEGIC PLAN

**Exceptional care for
every patient, every time.**

Grand Rounds is a self-approved group learning activity (Section 1) as defined by the Maintenance of Certification program of The Royal College of Physicians and Surgeons of Canada.

This activity meets the certification criteria of the College of Family Physicians of Canada and has been certified by the Continuing Education and Professional Development Office at NOSM University for up to 1 Mainpro+ Certified Activity credits
